## **DETAILED ACTION**

### ***Response to Arguments***

The applicant has elected Group 1 for examination and has since amended those claims and canceled the original Group 1 claims.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 72 recites the limitation "the terminal of claim 64, where the calculation stage" in line 1. There is insufficient antecedent basis for this limitation in the claim.

### ***Allowable Subject Matter***

Claims 64-71 and 73-79 are allowed

The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 64, a control unit that is programmable over a wireless interface to actuate the microswitches or microrelays and to set a predetermined value of a functional parameter was neither found, suggested, nor made evident by the prior art.

Regarding claim 75, as related to a mobile phone the deactivating of the transmitter stage before the actuation signal is transmitted to a microswitch configuration, or microrelay configuration or a micromotor.

Art Unit: 2684

Bozler et al. discloses a microelectro-mechanical system actuator device and reconfigurable circuits utilizing the actuator device.

Dhuler et al. discloses a method of fabricating a microelectro-mechanical structure having an arched beam.
